APCL - REINVENTING LED BULBS MAKING THE USE OF THE BEST UPTO DATE TECHNOLOGY

Established in 1983, the Arvind Press Caps Ltd. Part of NEWAR GROUP, is a premier enterprise with ISO 9001-2008 & ISO 14001-2004, a leading manufacturer of a wide variety of Aluminium & Brass lamp caps, lamp cap machinery and vitrite glass, under the Chairmanship of Mr. Arvind Kumar Newar and Mr. M. K. Newar (MD). Today it stands as the largest manufacturer of Lamp Caps and other lighting components in India, and the second largest producer in the Asia-Pacific region. It is also an acknowledged pioneer in manufacturing of Lead Free Vitrite Glass. RoHS compliant caps, single Bakelite TL Caps with crimping pin/Solid pin caps with plastic insulation since 2015 APCL is also supplying LED components integrating plastic and metals.

The competitiveness of the company's business rests on the strong foundations of its cutting edge, research development, technological expertise, state-of-the-art infrastructure, and a dedicated team of professionals. These strengths coupled with proven competencies have helped the company gain a very prestigious standing in India and abroad. Now with new expertise in all components needed for LED, company has gone in for forward integrating and started the assembly of LED lamps of the highest quality matching the best in the market.

FEATURES

Robust design makes it shock and vibration resistant

- Self made components
- Unique lampshade design and the lens avoids the brightness wastage
- Low power, Energy Efficient
- High luminosity output
- Uniformity in brightness
- More than 95% efficiency
- Optimum heat dissipation
- LEDs makes alternate energy much more viable
- Maintenance free
